

# Release Notes LINAX PQ5000CL

## Update of PQ5000CL

The update package of the PQ5000CL contains two firmware images, one for the base unit and the other one for the CL option, which enables communication with the current modules via the Current Link.

The firmware update should be performed in the following way:

1. Possible upgrade of the updater if not working with the EasyUpdater
2. Update of the firmware of the base unit
3. Update of the firmware of the CL option
