

Energy Meter supporting the LoRaWAN[®] Protocol

FIT FOR IOT.

Wireless energy data logging.
Simple and cost-effective.

 **GOSSSEN METRAWATT**
GMC-INSTRUMENTS GROUP

**TAKE IT
EASY!**

Why ENERGMID LPWAN?

Integrated wireless interface supporting the LoRaWAN[®] protocol

Significantly reduced wiring expense

Inexpensive and easy-to-use solution

Functions update for the interface via FUOTA

No battery replacement required thanks to power supply from measuring voltage

MID certification

Wireless Technology for your Efficient Energy Data Logging

The **ENERGMID LPWAN** energy meters supporting the **LoRaWAN[®] Protocol** enable easy and secure energy data acquisition thanks to innovative wireless communication technology.
Take it easy – without cabling work!

The **ENERGMID LPWAN** energy meters offer several advantages such as **long range, secure encryption, bidirectional communication** and **considerable cost savings.**
