

SINEAX® DM5S, programmable, up to 4 analog outputs, 32 energy meters, USB, Modbus optional
SINEAX® DM5F, programmable, 1/2 cycle measurement up to 4 analog outputs, USB, Modbus

Design	Application	Nominal frequency	Power supply	Bus connection	Standard protocol	Setting time (50Hz)		Outputs	Test certificate	Configuration	Article number	
Whitout display, for top-hat rail mounting	Universal version all applications 3U/3I	45..50/60..65 Hz	Nominal voltage 24..230VDC, 100..230VAC	RS485 (Modbus/RTU protocol)	Modbus	85...165 ms (with measuring time 4 periods)	15...25 ms (with measuring time 1/2 period)	Without outputs	4 analog outputs, bipolar ±20mA	Test certificate English		Basci configuration
